

This map serves less as a guide to the Catskills and more as an invitation to experience the region as we have over the years. We are fortunate to have such a beautiful landscape just a few hours away from the hustle of New York City and we are excited to share it with you. There is so much to explore in this charming region and we encourage you to find the things we haven't.

We have pointed out some hikes that challenged and invigorated us, but the real hiking maps are provided by the New York-New Jersey Trail Conference, Inc, and can be purchased online. The trails are well established and traveled but always be prepared before you go. Bring plenty of water, snacks, and appropriate clothes for the weather!

**CELL RECEPTION IS NOTORIOUSLY POOR OR NON-EXISTENT IN MOST OF THE VALLEYS.**  
If coming up Route 28 (Rt. to West Kill), expect to lose service just as you drive past the Phoenicia Diner. You can pick up a physical road map at local gas stations or download the area in Google Maps.

With love, Natalya & Devon
